Project Design Phase-I
Proposed Solution Template

Date	23 September 2022
Team ID	PNT2022TMID43863
Project Name	Project – Fashion Recommender Application.
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	I am a customer who is drived to a lot of online websites and I'm trying to figure out websites that sell through a high percentage of their merchandise. But A lot of online websites fail to satisfy the customers because of poor user browsing experience and the UI of the websites which makes me feel that these online stores are seeking lot of time and that is not beneficial to the customers.
2.	Idea / Solution description	This can be using a recommender engine that uses filtering techniques.
3.	Novelty / Uniqueness	It is already in the existing systems so we propose a system that has a recommender system with a chatbot.
4.	Social Impact / Customer Satisfaction	It satisfies the customers needs and the time consumption is less.
5.	Business Model (Revenue Model)	This is cost effective.
6.	Scalability of the Solution	The effectiveness of the solution can be inferred by the ratings of the customer.
